

# GOUDA

NATURAL CHEESE

*Made with Local Milk*

**NO ARTIFICIAL Growth Hormones\***

## Passionate Cheesemakers

Since 1938

Our premium Gouda is a semi-soft cheese with a creamy flavor and rich golden color. Young Gouda tends to be very mild and buttery, but it develops a much fuller flavor with age. Small eyes may be present. It does not contain artificial colors, flavors, or preservatives.

To meet our customers' expectations, our Gouda goes through strict quality controls before shipping. It is proudly made in Luana, Iowa and Shullsburg, Wisconsin.

Prairie Farms cheesemakers are the best in the industry and our reputation for quality is recognized at state, national and regional contests year after year.

\*The FDA has determined that no significant difference has been shown between milk derived from artificial growth hormone treated and non-artificial growth hormone treated cows.

Since our founding in 1938, Prairie Farms has always been owned by dairy farmers. The high-quality milk produced on our farms is sent to our farmer-owned facilities for production and packaging.

We are 100% in control of the farm-to-table cycle.
